MVP · ACCOUNTING REVIEW

Accounting review that is clearer, traceable and easy to follow.

An assistant that checks tax slips, calculations and documents, one month at a time, and shows where every figure comes from.

THE FLOW, IN FIVE STEPS

05 Report

SUPPORTS THE REVIEW · FINAL SIGN-OFF BY A LICENSED ACCOUNTANT

CREATED BY EMANUEL SANTOS

ES/

Emanuel Santos

Strategy, design and engineering of digital products.

TECHNOLOGY

I build and test systems

From prototype to code that can be verified.

PROCESSES

I organize before automating

Understanding the routine comes before any screen.

PRODUCT

I turn doubt into flow

Loosely structured problems become clear steps.

SYSTEMS ANALYSIS AND DEVELOPMENT · EXTENSION PROJECT

An extension project that starts from a real problem.

PEX — the university Extension Project in Systems Analysis and Development: bringing useful technology into the routine of small businesses.

01

Diagnosis

Understand the company's routine and its doubts.

02

Data collection

Conversation, questionnaire and real documents.

03 WE ARE HERE

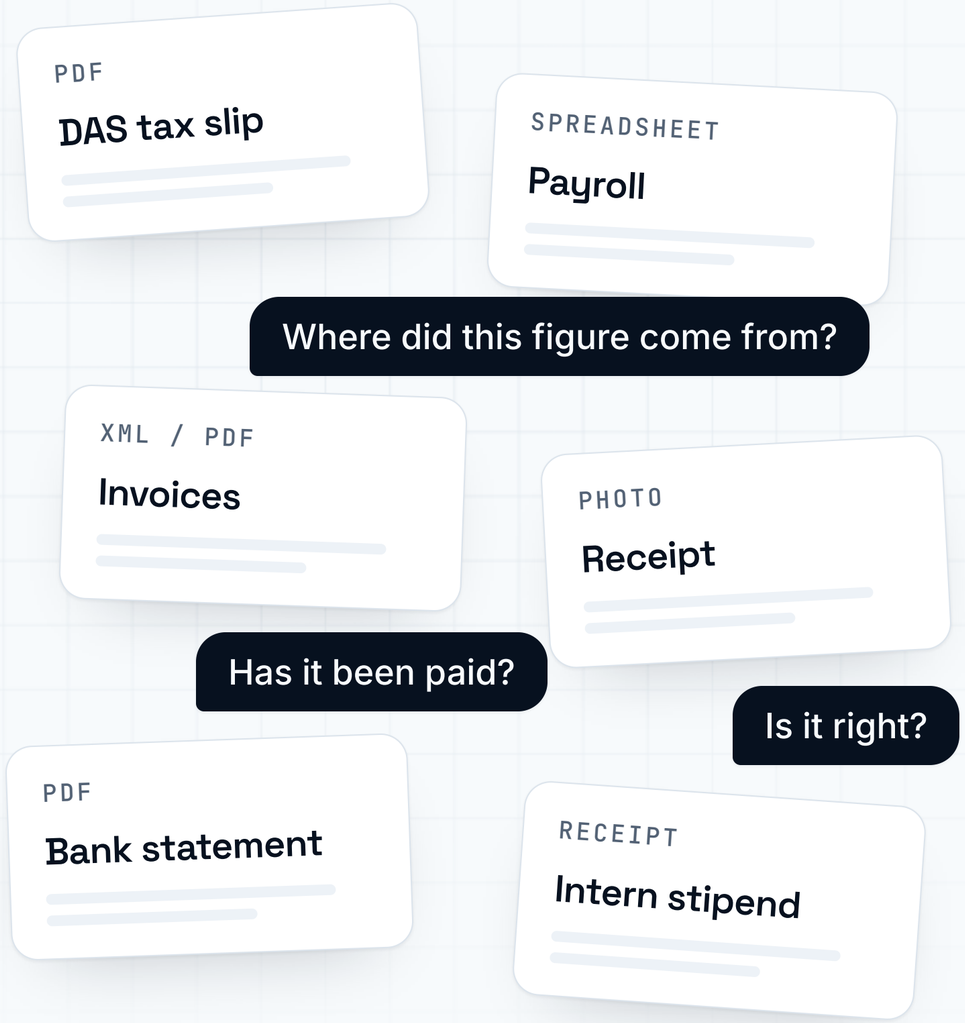

Proposal

A prototype of the flow and a plan for a pilot.

ACADEMIC ORIGIN · THE PROBLEM AND THE DECISION BELONG TO THE COMPANY

The figure arrives ready. The explanation doesn't.

- Documents scattered across email, PDFs, photos and spreadsheets.
- Calculations hard to follow without the calculation trail.
- Discrepancies noticed late, close to the due date.
- Every doubt means another round of questions.

Check one month at a time.

Every figure comes with the rule applied, the source document and the difference found.

ANATOMY OF A CHECK

REPORTED	EXPECTED	DIFFERENCE
The figure on the tax slip or document.	The figure the calculation points to.	Always shown, even when small.

RULE	Formula and table for the month.
SOURCE	Document and page of origin.
PENDING	What is missing or unreadable.

REFERENCE SCENARIO

- Legal services · São Paulo
- Simples Nacional · Annex IV
- Partner on owner's pay
- Intern · 6 h/day

You send what you have. The assistant asks for what's missing.

INPUT

- PDF
- Excel sheet
- Photo
- Typed data

ASSISTANT

Reads, asks, recalculates

01 Reads the documents

02 Spots what's missing

03 Recalculates the figures

OUTPUT

Clear report

- ✓ Plain explanation
- ✓ Calculation trail
- ✓ Every discrepancy

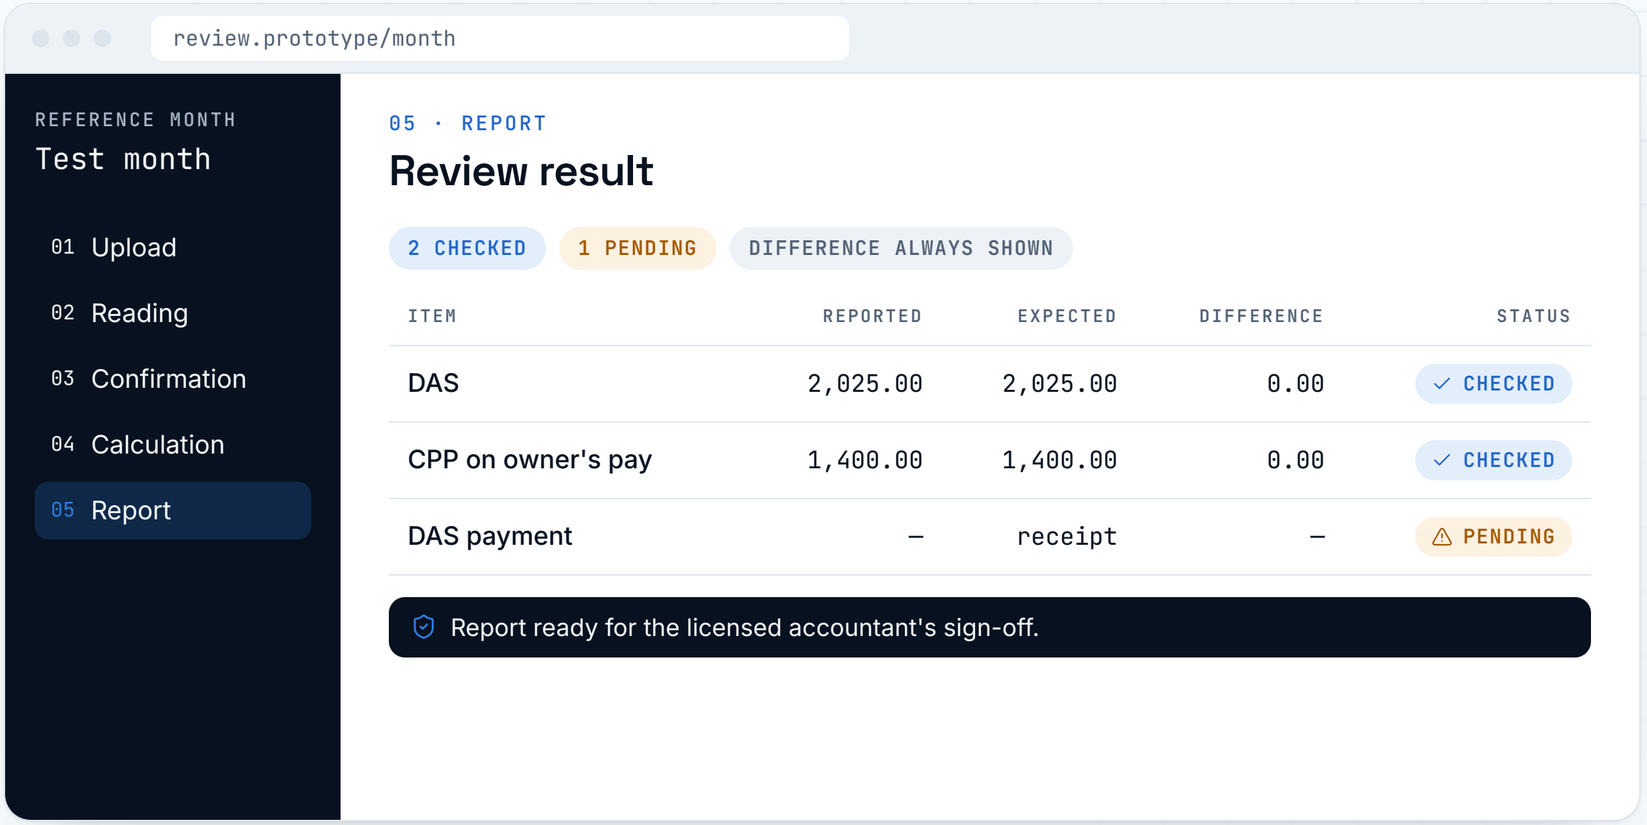

READING FAILED? → ASKS FOR A NEW PHOTO, FILE OR TYPED DATA

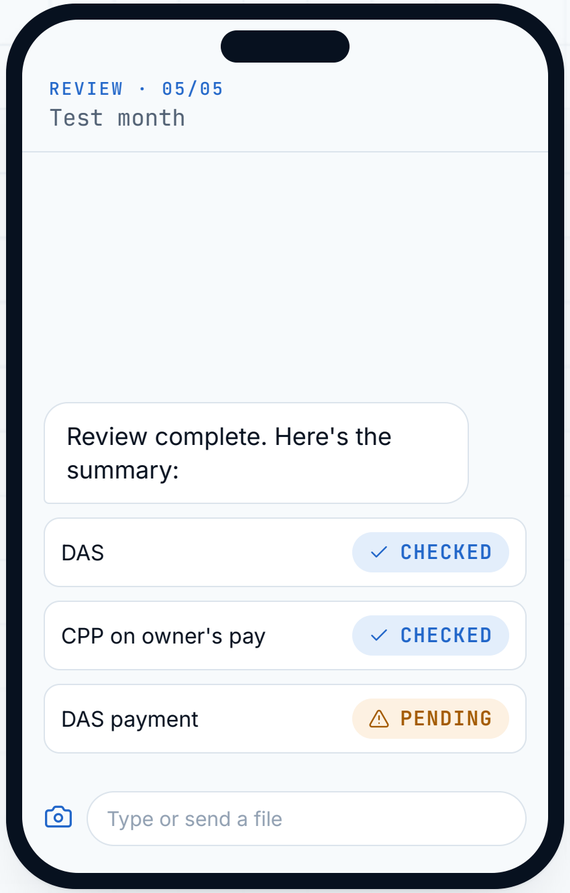

FINAL SIGN-OFF: LICENSED ACCOUNTANT

The same flow, on the web and on mobile.

✓ Upload — ✓ Reading — ✓ Confirmation — ✓ Calculation — 05 Report

SIMULATED CASE · QUESTIONNAIRE ASSUMPTIONS

Four decisions before the first review.

None of this requires integrations or investment in permanent infrastructure.

01

Documents

Tax slips, payroll, invoices and statements for the month.

WHO GATHERS THEM?

02

Access

Who sends, who views and who signs off.

WHO TAKES PART?

03

Data

Purpose, retention and disposal agreed in writing.

WHO IS ACCOUNTABLE?

04

Infrastructure

Where the pilot runs and who maintains it.

WHERE DOES IT RUN?

PERSONAL AND TAX DATA · PROCESSED FOR A DEFINED PURPOSE UNDER THE LGPD (BRAZIL'S DATA PROTECTION LAW)

A quick chat today. Full record later.

It isn't red tape: every recorded answer gives context to the calculation, traceability to the result and a basis for the accountant's sign-off.

NOW, IN CONVERSATION

- Which month do we check first?
- Which documents do you already have?
- Which figure raises the most doubts?
- Who signs off the final report?

IN THE FULL QUESTIONNAIRE

01	**Identification**	CNPJ, CNAE and tax regime
02	**Revenue**	monthly revenue and RBT12
03	**DAS slip**	annex, bracket and payment
04	**Owner's pay**	INSS, IRRF and CPP
05	**Internship**	agreement, stipend, insurance
06	**Expenses**	other slips and documents
07	**Sign-off**	criteria and person in charge

Small enough to truly validate.

01 COMPANY

01 MONTH

03 CHECKS

INSIDE THE MVP

- DAS × revenue and RBT12
- Owner's pay: INSS, IRRF and CPP
- Internship: stipend and transport aid
- Report with every discrepancy

OUT, FOR NOW

- Integration with other systems
- Filing returns or making payments
- Decisions without accountant sign-off
- Balance sheet and financial management

Shall we run a pilot?

One month, real documents and a joint review. No commitment beyond that.

PROPOSAL

01 Pick the month and gather the documents

02 Run the review in the prototype

03 Go over the report with the accountant

04 Decide together: adjust, expand or stop

SUCCESS CRITERIA

- ✓ Every figure shows its source and formula
- ✓ Every discrepancy appears in the report
- ✓ The accountant signs off without redoing it
- ✓ The company understands the result unaided

TODAY'S DECISION → Which month, which documents and the review date.

First, review. Then, keep track.

Each next step only starts if the previous one proves its value in the pilot.

NOW

Review

One month, with a discrepancy report.

POSSIBLE

Balance sheet

A consolidated view built from the reviews.

POSSIBLE

Finance

Tracking inflows, outflows and deadlines.

POSSIBLE

Management

Indicators for the company's decisions.

Ideas take shape and keep going. EMANUEL SANTOS · ES/
